

Forest Technician

- Located in Gippsland
- Successful company
- Interesting and varied work based outside
- 3 x 1 year fixed-term roles

HVP Plantations manages a large timber estate in Gippsland, with plantations stretching from Bairnsdale to Neerim. HVP Plantations has been managing these timber plantations for over 20 years and we play a key role in supplying our environmentally certified and sustainable timber to customers in Gippsland and across Victoria.

HVP Plantations has a number of vacancies for Forest Technicians employed on a one year, fixed term basis. Those appointed will play an important role on a large Gippsland work program and be based out of our Churchill office. The one year term of the role may be extended dependant on the work program and those appointed will be able to apply for ongoing roles as they become available.

The Forest Technician roles will assist our Foresters in coordinating harvesting, and plantation management work programs. The roles work with our forestry Contractors to ensure safe, environmentally sound and productive work programs that assist in the growth of high quality trees.

So what are we looking for?

- Have worked in Forestry or in Agriculture and used to working outdoors
- Supervisory or staff management experience
- Good communication skills
- Well organised and can work autonomously
- Team skills
- Have used a computer and mobile technology in a work setting
- Current drivers licence
- Relevant trade qualifications or applicable higher education would be well regarded
- Being an active member of the CFA is valued by HVP

What do you get in return?

- Good salary
- On the job training and mentoring
- Allocated a work vehicle with some private use

Send applications to jobs@hvp.com.au by 17 December 2021.

For your safety and that of your team, successful applicants will undertake a drug and alcohol test.

HVP Plantations is an organisation where diversity of thought, experience and background is acknowledged and celebrated. We welcome applications from all sectors of the community, and encourage females and Aboriginal and/or Torres Strait Islanders to apply.
